

# iPad® 2/3 Frames & Wall Mount System

*Turn an iPad Into a Command Station*

Turn any iPad into  
a Powerful Control/  
Touch Panel

## Designed for Integrators

- iPad 2 / 3rd Gen-ready for easy assembly: Save valuable labor time with our simple, secure design. No special tools needed.
- Charge iPads easily w. vCharger™ & vPower™ over long distances (up to 328+ feet), or choose iPCX™ for short 15-25 feet runs. Unlike standard wall mounts that don't include any charging solutions, VidaBox gives you the option to provide steady, reliable power at any distance. Every iPad is ready for use at any time!
- Blends seamlessly into any décor: Available in seven different colors and finishes, or paint it to match your environment.
- Every interconnect is included: Build your own custom iPad frame kit w. a VidaBox vCharger or iPCX to have everything needed for installation.
- Uses standard Cat 5 cabling: Easily convert existing Cat 5 cable to a vCharger™/iPCX™ cable in minutes.

This professional on-wall frame/mounting system for the iPad® 2/3rd Gen is the most complete and affordable iPad on-wall mounting system available, making the iPads an affordable alternative to expensive, proprietary screens. They're also available in (7) different colors & finishes to perfectly match any décor or environment!

Install multiple wall-mounted iPads to control TV, lighting, HVAC, security, and more. Add our custom-engineered iPCX or vCharger™ + vPower™ combination for constant charging & peak reliability.

*When it's time to install an iPad 2/3 wall mount, choose the one that gives you continuous recharge support and easy assembly at an affordable price.*
