

MINI-5 SERIES

MINI PLUG CABLES

- ① Solid Conductors prevent harshness and confusion caused by strand interaction.
- ② Long-Grain Copper (LGC): Fewer impurities improves clarity and naturalness.
- ③ Identical Positive & Negative Conductors honor both sides of the signal.
- ④ Foamed Polyethylene (FPE) Insulation: Air content reduces smearing and preserves dynamics.
- ⑤ For best sound use cable with arrow pointing to equipment INPUT.
