

## TV TRICKLESAVER™

Reduce power consumption of TV accessories

### OVERVIEW

The product reduces the standby energy consumed by TV accessories. The product operates on a simple Master / Slave principle where the TV is the Master and the TV accessories are the Slaves. The product has inbuilt current sensing circuitry to sense when a PC or TV is On or Off .

- Master On = Slaves On.
- Master Off = Slaves Off = no standby power.

The product is easy to install and provides simple automation to reduce wasteful standby energy consumption. The product can be connected directly to equipment or connected to a standard electrical powerstrip with a number of connected devices.

### KEY FEATURES

- In-built relay for switching off devices that consume standby power.
- Adjustable threshold for sensing TV and PC status.
- Rear mounting holes for wall, under desk mounting.
- Installs in minutes.
- Suitable for home and office use.

### PRODUCT WARRANTY

The product is supplied with a 1 year product warranty against defective manufacturing and components.
