### One case - Infinite possibilities

**NEW for iPad 2:** The Wallee supports Apple's Smart Cover & is both thinner and lighter than Wallee 1.

When not docked to one of our sleek modular accessories, The Wallee does double-duty acting as a durable protective case for your iPad. Precision molded, all physical buttons are left easily accessible, and integrated thumb tabs mean your iPad can be removed from the case quickly and easily. The Wallee's patented 'locking X' mechanism means your iPad confidently mounts to any of our accessories, from Wall, to desk to bag to cafe. A simple turn and click and your iPad is locked into position; another turn and click and it is released together with its protective shell.

Wall mount disks sold separately [here](#).

**Compatible with:** iPad 2 & Apple Smart Cover, Wall Mount Disks (sold separately), and the complete line of Wallee accessories.
